SUMMARY

Junior Web Developer specializing in front end development. Experienced with all stages of the development cycle for responsive and dynamic web projects. Well-versed in many programming languages including HTML5, CSS, MySQL, PHP, SASS, and JavaScript. Strong background in customer relations and an extensive history of successful management of projects and a team.

SKILL HIGHLIGHTS

- Team & Project Management
- Strong decision maker
- Complex problem solver
- Creative design
- Innovative
- Service-focused

EXPERIENCE

Web Designer – 02/2019 to 05/2019

SuperInterns.com, Remote

- Cooperate with other designers to create clean and user-friendly webpages for the company's new project called Super Purposes.
- Design wireframes and present to the design team during the weekly meeting in order to get feedback from supervisors and the other designers.
- Use WordPress to create a sandbox page and create the first version of the pages assigned by my supervisor.
- Find the answers to challenging tasks such as applying new CSS styles to a WordPress Widget by finding the default styles somewhere in several pages of complex PHP backend code.
- Carry out quality assurance tests on the original SuperInterns.com site after it had been redesigned in order to discover errors and optimize usability.

Graphic Designer – 01/2019 to 02/2019

SuperInterns.com, Remote

- Work as a part of the Graphic Design team to create funny "comic-book style" images for use on the Super Purposes and SuperInterns websites.
- Use Photoshop CC 2018 to create the style of the images.
- Was transferred to the Web Design team after a month in order to utilize my talents as a web designer and developer.

EDUCATION

Bachelor of Science: **Web Development** - 2019
Baker College, MI
